

PEXIP SECURE MEETINGS FOR

Government

Sovereign and compliant video meeting solution providing secure and private communication for government officials, agencies, and citizens.

Powering secure collaboration in Government

Pexip Secure Meetings for Government offers a secure, compliant communication solution tailored for government and public sector needs. It provides robust authentication, secure deployment options for data privacy, and meets strict regulatory standards, making it suitable for government bodies. Its interoperability across various devices and platforms enhances public sector collaboration, establishing Pexip as a reliable and trusted choice globally.

Secure deployment options

Citizen engagement

Make it easier for citizens to interact with government officials while ensuring meeting privacy and control of sensitive data.

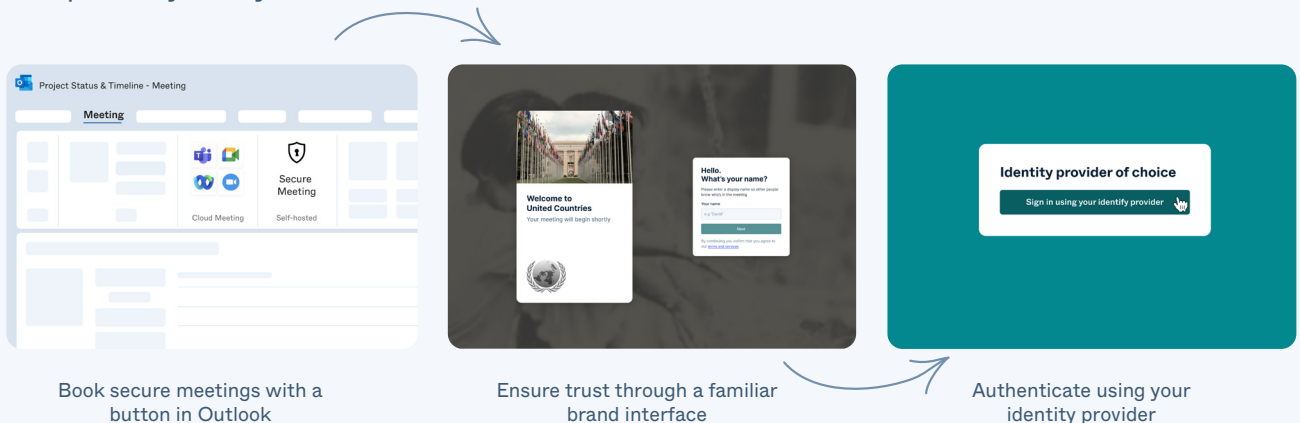

Secure alternative

Choose a secure meeting alternative for scenarios where compliance regulations prevent the use of public cloud services.

Seamless cross-agency collaboration

Simply and securely facilitate cross-functional collaboration between government agencies and international bodies.

Supporting your compliance journey

Product Specifications

Pexip Secure Meetings for Government features end-to-end encryption, multi-factor authentication, compliance with national cybersecurity standards, and robust access control to ensure confidential communication.

Key features
