For Teams Rooms

Enable Microsoft Teams Rooms to join any SIP/H323-enabled meeting. Place and receive calls directly to and from SIP/H323 devices.

Join any video meeting from your Teams Rooms

When you have invested in Microsoft Teams and Teams Rooms you know the simplicity of regularly joining virtual meetings. With Pexip Connect for Teams Rooms, you can also use your Teams Rooms devices to join any SIP or H323-enabled meeting. Meetings such as Cisco Webex, Zoom, or SIP-enabled Google Meet meetings can now be joined from your Teams Rooms device, making your Teams Rooms useful for all your meeting and collaboration requirements. Simply join any meeting right from the in-room control pad.

Extend the usability of your Teams Rooms

Pexip Connect for Teams Rooms enables your Teams Rooms devices to call third-party platforms such as Webex, Zoom, and other SIP-enabled meetings.
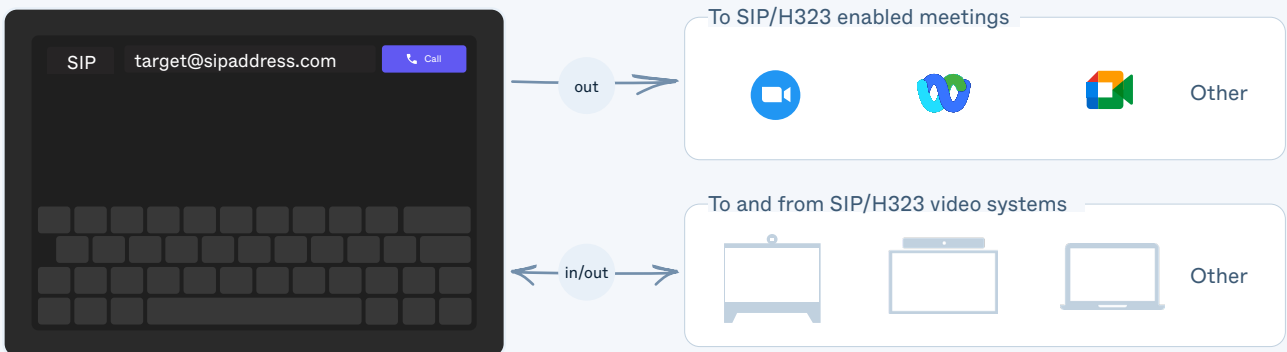

Make it easy to be productive

Remove the user experience confusion of joining meetings and having to book specific rooms for specific calls. Always use your Teams Rooms.

Simply call anyone directly

Place and receive direct 1:1 calls between your Teams Rooms devices and SIP or H323 video conferencing devices.

Teams Rooms: Join any meeting, or place and receive calls to and from anyone
