Pexip Professional Services

Infinity Project Management

Full control, unmatched capabilities

When you want full control over your video conferencing infrastructure and media, you choose Pexip Infinity. It is a software-based self-hosted video conferencing platform with all the benefits of the cloud, but entirely under your control. You can deploy Infinity in a multitude of ways, including in a cloud subscription on for instance Microsoft Azure, AWS, GCP or Oracle Cloud, or even on-premises if that is a requirement. Infinity can help you migrate to the cloud at your own pace. And of course, Infinity features all of the features that you have come to know from Pexip.

With Pexip Professional Services, the planning, design, installation and integration of Infinity is managed reliably, quickly and cost effectively. Pexip will ensure the successful implementation through the use of its highly trained and experienced project managers. A Pexip Professional Services Project Manager will oversee the entire process for you.

Benefits

Quality – Every project is executed to exacting quality standards

Speed – Optimized planning, design, installation and integration process

Value – A fixed-price, fixed-deliverables service

This service includes:

- An initial Project Kick-off Meeting to discuss all deliverables and align key stakeholders
- Management of the workstreams to schedule
- Management of the workstreams to budget
- Regular communication of the above
