Pexip Professional Services

Pexip Infinity Proof of Concept

Full control, unmatched capabilities

When you want full control over your video conferencing infrastructure and media, you choose Pexip Infinity. It is a software-based, self-hosted video conferencing platform with all the benefits of the cloud, but entirely under your control. You can deploy Infinity in a multitude of ways, including in a cloud subscription on Microsoft Azure, AWS, or GCP, or on-premises if required. With the Pexip self-hosted platform, you can migrate to the cloud at your own pace while taking advantage of all the features that you have come to rely on.

With Pexip Professional Services, the self-hosted software is installed reliably, quickly and cost effectively. Pexip will ensure the successful installation and integration with your video conferencing systems, call control and calendar through the use of its highly trained and experienced technical experts.

A Pexip Professional Services Engineer will oversee the entire process for you.

Benefits

Quality – Every installation is performed to exacting quality standards

Speed – Optimized delivery and deployment process

Value – A fixed-price, fixed-deliverables service

This service includes:

Remote installation of one Management Node and up to three Conferencing Nodes within your environment
