

PEXIP CONNECT

For Zoom Rooms

Enable Zoom Rooms to join Microsoft Teams Meetings with dual-screen capability and high quality content sharing.

Join Teams meetings right from your Zoom Rooms

Pexip Connect for Zoom Rooms is a high quality alternative to Direct Guest Join when connecting to Teams meetings using Zoom Rooms. It leverages Pexip's Microsoft-certified Cloud Video Interop (CVI) service. User benefits include features such as full dual-screen use for video and audio participants, in-room HDMI and wireless content sharing to the Teams meeting, and participants and content dynamically placed across both displays. Pexip Connect for Zoom Rooms seamlessly integrates with Zoom Rooms and provides a familiar user experience for anyone using it.

Extend the reach of your Zoom Rooms

Use Zoom Rooms to quickly join any scheduled Teams meeting right from the in-room panel using one touch to join, or had-hoc with Meeting ID and passcode.

Full dual-screen display experience

More engaging meeting experiences from AI-powered participant and content display taking full advantage of dual-screen systems.

Seamlessly integrated

Works with Windows, Mac and Android Appliance Zoom Rooms systems. Easily enable Pexip from the Zoom admin portal with only a few clicks.

Join any Teams meeting, internal or external, right from your Zoom Room

Zoom Rooms can join Teams meetings using native Zoom one touch to join, or by entering Meeting ID.

Product Specifications

Pexip Connect for Zoom Rooms integrates with your Zoom platform to enable high quality interoperability with Teams meetings. Integration is simple to manage in the Zoom admin portal: an admin can easily enable all Zoom Rooms enterprise-wide, as per the Pexip licensing terms, by adding Pexip information in Zoom Rooms meeting interop settings.
