

PEXIP CONNECT

For Google Meet and Meet hardware

Enable universal cross-platform interoperability for your Meet hardware and Meet meetings. Join Teams meetings from Meet hardware, and enable any room to join your Meet meetings.

Any room to any meeting—optimized for Google Meet and Meet hardware

Maximize your Google Meet and hardware investments with seamless third-party meeting access. Connect for Google Rooms lets employees join Teams, Zoom, and other meetings directly from Google Meet hardware. That means your native rooms can be used for all kinds of meetings*. And, you don't need to rush to replace existing SIP and H323 devices either, as they can join Meet sessions too. And just like that, all your devices became much more usable for a lot more meetings.

Universal interoperability

Pexip is the global leader in cross-platform video interoperability solutions, and enables that perfect any-room-to-any-meeting simplicity.

Perfect for Google Workspace

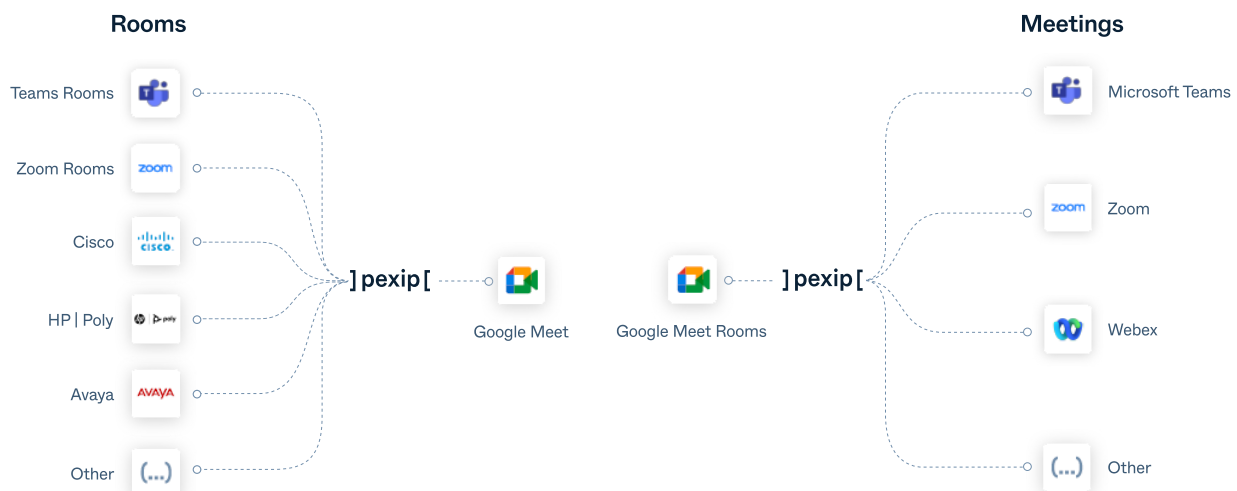

Integrates seamlessly and effortlessly with Google Workspace Meet, Calendar, and Meet hardware. All managed directly from the Google Admin portal.

Simply collaborate cross-platform

Simply share, collaborate, and interact by sharing and receiving content the way you expect across all room systems and meeting platforms. Simple and easy.

Pexip Connect for Google Meet and Meet Rooms:

Use your Meet hardware to join Teams and other third-party meetings. And enable anyone to join your Meet meetings.

Product Specifications

Pexip Connect for Google Meet and Google Rooms are based on Pexip's certified and proven video interoperability services. With long-standing technology and engineering relationships with Google, Microsoft, Zoom, and other industry leaders, Pexip delivers the most comprehensive cross-platform and cross-cloud interoperability solutions available. Simply join any meeting from any room.
